Innovation That Protects

Optional Features for Select 3SI Tracking Devices

Powerful GPS Tracking To Capture Criminals and Recover Stolen Assets

3SI NextGen3 tracking solutions combine three location-based technologies, GPS/Cellular/RF, in a single tracking device designed to be easily hidden in items that are frequently stolen or need to be tracked.

Mobile Ping

Enables a courier or store owner to access a shortcut on a smartphone to quickly and easily ping a 3SI tracking device and trigger it to begin reporting. Once triggered, designated security personnel receive an alert notifying them of the event and the Device begins tracking on the 3SI secure website.

Use Order Code: MNL-SE-UM-13NA_EN to enable this feature on a new or existing device.

Key features...

- Compatible with Android and Apple devices
- Shortcut is easy to install
- One smartphone can have shortcuts for multiple devices
- Tracker can be pinged at any time

Tilt

Enables a user to track a Device once it has tilted more than 30 degrees from a user-defined bait orientation.

Use Order Code: MNL-SE-UM-14NA_EN to enable this feature on a new or existing device.

Key features...

- Broadens owners ability to trigger a device
- Ideal for environments that are prone to constant movement

Scheduled Hibernate

Enables a Device owner to schedule hibernation for a 3SI tracking device. Ideal for applications where a tracker does not need to be active during “low risk” times. The hibernation can occur up to seven times in a one-week period. There can be one period/day and the same schedule will repeat every week unless suspended by the owner. **Use Order Code: MNL-SE-UM-15NA_EN to enable this feature on a new or existing device.**

Key features...

- Easy to use
- Saves battery life
- The same schedule can be used for multiple devices

3SI Security Systems offers proven GPS tracking solutions that combine aided GPS, Cellular and Radio Frequency (RF) location technologies with a secure tracking website. Available in a variety of designs to track all types of valuable assets, our system has led to the recovery of millions in stolen cash and assets.

Our cash protection solutions use ink, dye and smoke to help stop crime and catch criminals.

Contact 3SI Customer Service to add one or more of these optional features to a new or currently deployed device.

NOTE: Not all options are available on all Devices. Customer Service will confirm availability upon ordering.
