## **New Technology Automates Procedures and Secures Branches During Vulnerable Openings and Closings**

### *Credit Unions use SafeResource™ to increase branch safety and efficiency*

Robberies and burglaries continue to be a problem at Credit Unions nationwide. Adding to security concerns is the trend of branch transformation which combines lower staffing levels with an open layout, leaving staff more vulnerable to crime. Fortunately, SafeResource technology works perfectly in all types of Credit Union branches to improve safety and provide comprehensive reporting of security protocols being met.

Based on the highly successful SafeBanker® platform, SafeResource automates branch openings, closings and services (such as replenishing an ATM or retrieving night deposits) for Credit Unions. Key features of this innovative technology include:

- **Uniform opening and closing process for all branches:** no more window shade or colored card signals to staff members...the same process will work in every branch.
- **Audio/video/chat support in Panic situations:** Immediately connects staff to security support to ensure safety during openings/closings.
- **Full audit program:** makes conformance reporting fast, accurate and simple via download to Excel or similar programs.
- **Compliance with the Bank Protection Act and NCUA Guidelines.**
- **Reduced liability risk.**
- **Cost savings through increased efficiency in branches and back office:** fewer branch staff are required and less time is spent generating reports.

SafeResource links directly with a Credit Union's own Security Monitoring Center, or 3SI can offer complete monitoring service and support with a U.L. Certified, TMA 5-Diamond facility. SafeResource is scalable so the system will work well in Credit Unions of any size.

### **Notes for editors**

#### *About 3SI Security Systems (3SI)*

3SI is a global leader in asset protection systems designed to recover stolen cash and high-value assets, apprehend criminals and deter crime with more than 45 years of experience in financial and

retail markets. 3SI's solutions include currency degradation and GPS tracking solutions to protect cash and high-value assets in banks, safes and ATMs, jewelry, pharmaceuticals, consumer electronics, other retailers and law enforcement. 3SI is the exclusive distributor of SafeBanker and SafeResource®, both products of SaferMobility LLC. #SaferWorld
